The Journey

Present

- Senior Software Engineer (Full stack) at **Scoutbee** (Sep 2023 -)
An AI-based knowledge platform that enables procurement to better manage existing suppliers and identify new ones.
On the side;
- Maker (Full stack) of **Kvik App** (Dec 2023 -)
As a runner myself, I built this app to monitor training progress in real-time with my coach, benefiting both athletes and coaches.
- Co-Maker (Full stack) of **Mockup Generator** (May 2023 -)
An online tool that generates multiple mockups in seconds, saving creatives and online store owners significant time on repetitive tasks.

Past

- Took a sabbatical for self-education, learning new technologies, and working on side projects.
- Software Engineer (Full stack) at **Bluecrew** (Nov 2020 - Jan 2023)
- Senior React Native Developer at **Luxoft** (Jan 2017 - Nov 2020)
- Frontend Developer at **K&C (Krusche & Company)** (Feb 2016 - Jan 2017)
- Graduated from **Kyiv National I.K. Karpenko-Kary** (2013 - 2017)

Technology Stack

- Experience with **JavaScript, TypeScript** and **React, React Native, Next.js, Node.js**.
- Proficient in **HTML, CSS3, Docker, Git, Expo, Xcode**, and **Android Studio**.
- Experienced with **Figma** and **Sketch** for design. Personal interest in **UI/UX Design**.
- Familiar with Agile Methodologies (**Scrum, Kanban**).
